ABOUT

I design complex financial products like stocks, annuities and defi crypto's for web & apps, and I deliver intuitive solutions that fit the IT architecture. I work at Knab, a dutch bank and work parttime freelance for Cryptohopper. An automated cryptocurrency trading platform.

EXPERIENCE

UX Architect (parttime) at Cryptohopper

Aug 2021 – Present

The most complete automated cryptocurrency trading platform out there. Trade automatically, 24/7, based on your own technical indicators or those of an expert. I'm working on the App, Public website and closed environment.

UX Architect at Knab

Oct 2018 - Present

I translate the strategy and objectives of Knab (both from a business and a IT perspective) into suitable solutions in different roles. Currently I'm working on the migration between Aegon Bank and Knab.

Freelance UX specialist

Jan 2015 - Apr 2020

Sr. UX designer at UWV

Mar 2015 - Oct 2018

Responsible for:

- Uww.nl - (4 mln. visits per month)
- Werk.nl - (2,58 mln visits per month)
- MijnUWV.nl - (2 mln. visits per month)

UX Director at Playmax Group

Jan 2015 - Dec 2017

Playmax is a global partner for Digital Twin, virtual reality and augmented reality solutions for a wide variety of purposes.

UX Manager at HCL Technologies

Oct 2014 - Dec 2014

HCL and Aegon started a joint-venture through cXstudio (customer experience studio) which operates as an Agile start-up. I was a business partner who translated ideas into UX designs and products by managing 3 teams.

Various roles as Consultant (finance/government sector)

Apr 2009 - Oct 2014
